## DETAILED ACTION

### *Election/Restrictions*

Claim 7-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on April 14, 2006.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 3 and 4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. Claims 3 and 4 have been amended to define a side of the mask relative to "the blocking portion on the periphery of the pass through aperture." The examiner could not find support for a blocking portion at the periphery of the pass through aperture. The specification refers to that portion of the mask at the periphery of the pass through aperture as the protruding portion

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-6 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 5,224,264 issued to Takahashi et al.

See figure 1c and column 3, line 45-51.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 5,249,520 issued to Andris et al.

See figure 4. Andris teaches using the structure of figure 4 in connection with a screening process.

Claims 1, 3, 5, 6 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by IBM Technical Disclosure Bulletin NN75012226.

See mask of figure 2, which is made of molybdenum.

***Response to Arguments***

Applicant's arguments filed September 22, 2006 have been fully considered but they are not persuasive. Applicant argues that the structures of the applied references are used for purposes other than that of the instantly claimed mask. However, The examiner notes that applicants arguments did not challenge the fact that the structures of the applied references satisfy the structural limitations of the claims. The masks of the applied references and the instant masks are all used in the field of semiconductor

device fabrication and different intended uses for two otherwise similar products is not a basis for patentable distinction.<sup>1</sup>

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
